Instructions:

This is a Adobe PDF Form, you must use Adobe Acrobat (free version will work) to properly interact with this form. All the shaded areas on this form can be selected or information inserted into these areas. You can select our defaults from the dropdown boxes below OR you can type your custom components into ANY form element. Mouse over field for TIPS

1. Select/Fill out all information and specifications using standard components where applicable.
2. Select/Place all desired components (outlets, filler, drain, etc.) where they are needed. Include detailed mounting brackets or studs, fan shroud & AC condenser locations.
3. The sample radiator is drawn with square tanks. If another tank shape is desired, draw this in with dotted lines. Indicate any area of the radiator where clearance may be a factor.
4. Read, fill-out, sign and date the drawing (agreement) in the customer approval signature box at the bottom of the drawing.
5. Once completed, fax or mail this information to Griffin Thermal Products. When transmitting via fax, please make certain that your answers & details are in **BOLD** ink.
